Homestay Questionnaire Instructions

Tips for a Good Homestay Match

• Be specific in your responses. The more the Study Center in Santiago knows about your likes and dislikes, the better the chances are of making a good match.

• Indicate if you hope to live with a host family for your entire stay abroad.

• (Optional) complete the Homestay Questionnaire in Spanish. This form is sent to the Study Center and is seen by your host family, so completing it in Spanish will be very helpful. If your Spanish level does not allow you to express important details, it is best to complete it in English.

Homestay Questionnaire Photo

You will need to attach one (1) passport photo to your homestay questionnaire. To ensure the timely processing of your application, make sure your photos meet the following criteria:

• You are looking straight ahead, with your head and shoulders in the center of the photograph
• You are against a plain background (preferably white)
• No other people or objects are visible in the photo
• The photo is an official passport photo or is printed on photo paper
• The photo is 2x2 inches.

Photocopied photos (black and white or color) and photos printed on copy paper will not be accepted.

Because you will need to make photocopies of your homestay questionnaire, you should attach your passport photo to the homestay questionnaire before making photocopies.
