Objective of the “Need to Know” Document
The Need to Know document is an advising tool written by a Berkeley Study Abroad adviser to review program specific
details that may impact a student’s decision to apply for an EAP program. The document is not a summary of eligibility
requirements, academic, housing, application and other logistical details freely available to students on the UCEAP and
BSA website, and reviewed by a student in the Program Self-Assessment. The best source of detailed program
information is always the UCEAP Program Guide from the prior academic cycle. If any concerns you have are not
addressed on the UCEAP website, in the Program Guide or Need to Know document, please contact the BSA adviser for
this program.

Advisor Contact Information
For BSA Adviser name, email and drop-in advising hours, visit http://studyabroad.berkeley.edu/contact/advising

Curriculum
The program offers three tracks:

1. Physics
2. Pre-Med/Pre-Health
3. Math

If you are considering taking any Univ of Glasgow courses for medical school admission you are advised to consult with
your prospective medical schools to ensure the courses you take can be used to satisfy your requirements.

Application
There are two applications to fill out:

1. The EAP Application on the Berkeley Study Abroad website: You can submit this application to the BSA office in
   160 Stephens Hall no later than the February 1, 2016 deadline.

2. The University of Glasgow Science Summer Application (link and instructions can be accesses from the EAP
   Application Checklist) no later than the February 1, 2016 deadline.

Instructions for completing the University of Glasgow Science Summer Application:
• Academic Career = Lifelong Learning
• Admit Term = Academic Year 2015-16 [yes 15-16]
• Mode of Study = Full-Time
• Program of Study = UCEAP
• You will need to Search and choose Physics OR Mathematics Summer OR Pre-Med/Pre-Health.
• All students upload a transcript and a photocopy of your passport information pages. If you do not yet have a passport, you can upload the photocopy later when it is available – but you must apply for your passport immediately!
• Non-US citizens do not need to submit an English Language Certificate (that is a Visa requirement that
does not apply to Summer programs).

Prerequisites
Physics for Life sciences applicants are required to have taken two sequential courses of Single-Variable Calculus with a
minimum grade of C and no repeats. This equates to the following at UC Berkeley: Math 1AB, Math 10AB, or Math 16AB

Pre-Med/Pre-Health applicants are required to have completed one year of university-level Biology with a minimum grade
of C.
Selection
Applications are first-come, first-served. Berkeley Study Abroad will send you a selected notification, but please be advised that Glasgow will make the final admission decision. Both selection notifications are necessary in order to participate as an EAP student.

Fees
You will need to take action to accept your offer of admission by paying a non-refundable application fee of 150 GBP (approximately $200 USD).

After you’ve been accepted by Glasgow, the Glasgow accommodations office will email you a housing offer; you need to reply to accept the offer and also pay a deposit of 450 GBP online (approximately $720 USD). You will pay the remaining balance of the housing cost upon arrival in Glasgow. Financial Aid students do not receive any dispensation to wait until their financial aid is disbursed to make these payments.

Calendar
Physics students will participate in a different social program than non-Physics students although some events may overlap. This difference is due to courses being administered by different schools at the Univ. of Glasgow.

Students in the Pre-Med/Pre-Health track arrive (and depart) one week earlier than students in the Physics track, so there are two separate sets of orientations. There may be some overlapping events or excursions.

Housing
You are required to live in dormitory housing on campus that is prearranged by the University of Glasgow. Although

Entry Clearance
You may not travel to or through the Republic of Ireland on your way to the United Kingdom. Do not book your flight on Aer Lingus, as it will make a stop in Dublin on its way to the U.K.

U.S. Citizens: Obtain an entry clearance called the Student Visitor Visa when you arrive in the U.K. from British immigration officers at the airport or at another port of entry. UCEAP will provide detailed information about this clearance. You need to show proper documentation of your student status and evidence of financial support for the coming term abroad. UCEAP strongly encourages U.S. citizens to obtain the Student Visitor Visa upon arrival in the U.K.

If you are not a U.S. citizen, check the United Kingdom Visa and Immigration (UKVI) website to find out if you need to obtain an entry clearance while still in the U.S.

Internships, Research, and Independent Study
Internship, research, and independent study are not possible on this program.
